

RESOURCES FOR CHILDREN

Schools Closed? What is COVID-19?

COVID-19 Explained to Children

Talking with Children About COVID-19 from the CDC

- As public conversations around COVID-19 increase, children may worry about themselves, their family, and friends.
- Parents, family members, school staff, and other trusted adults can play an important role in helping children make sense of what they hear in a way that is honest, accurate, and minimizes anxiety or fear.

Khan Academy

- Schools closed? We're here to help you with free resources to keep everyone learning.
- Daily schedules for students ages 2-18 to keep them learning.
- [Schedule | Parent & Teacher Resources](#)

Early Childhood Videos

- Seven-minute videos, featuring a book read by a Science Center team member combined with experiments the whole family can try out at home with common household items.
- Aimed at children age 5 and younger and their parents or caregivers.
- Topics include skyscrapers, rockets, wind power, and slimy science, and introductory concepts such as sorting, coding and buoyancy.

Educator Resources

- Curriculum downloads to keep young minds fresh include; Advanced Spy Science, Amazing Architecture, Build A Zoo, Experiment with Elements and Space Exploration.
- Movie Education guides to some of our DOME theater movies, made available for free by the distribution company's websites. We also have a few linked on our [DOME website](#).

Virtual Field Trips

- Learn about circuit boards, cloud rings and even the Apollo Command Module from our experienced Science Center Staff.
